

Lithofin Abra-CLEAN

Description

A special LITHOFIN product developed for professional use. This mildly alkaline special cleaner consists of highly active components with an abrasive effect resulting from nano particles. The gel is easy to use, scented and creates no aggravating or harmful fumes.

Properties

Lithofin Abra-CLEAN loosens and removes all hardened dirt deposits, grease, oil, wax films, stubborn incrustations, etc.

Technical data:

Density: approx. 1.3 g/cm³

pH-Value: approx. 10

Appearance: viscous-cloudy, beige

Odour: scented

Field of Use

To remove stubborn/deeply engrained dirt and for the intensive cleaning of porcelain and ceramic tiles and natural stone such as granite and similar hard stones. Suitable for indoor and outdoor use. For removing pencil and aluminium marks. Ideal for removing the transportation protective coat from porcelain tiles. Lithofin Abra-CLEAN can be added as an intensifier to other (non-acidic) cleaners: Apply chosen cleaner, add approx. 20-50% Lithofin Abra-CLEAN and mix by brushing. A careful rewash is necessary.

Directions for Use

Thoroughly vacuum or sweep the surface because sand or similar particles can cause scratches. Lightly wet the surface with water before application. Shake-up the product, then apply onto surface and spread. Allow product to work for about 10 min. Then scrub surface with a brush or machine until all dirt is loose. Rinse surface several times with plenty of water. Clean off application tools before product dries to them.

Please Note: Polished limestone, marble, varnished surfaces and similar sensitive materials can become dull. We recommend testing product prior use.

Coverage: approx. 5-20 m²/L, depending on the type and magnitude of dirt.

Storage

Closed and cool. Shelf life: up to 2 years.

Environmental Protection

The contained tensides are biodegradable according to WRMG. WGK 1 after VwVwS from 17.5.99.

Disposal: Containers are made of environmentally friendly polyethylene (PE). Clean containers can be recycled through collection system (see product label).

Safety

Ingredients: < 5% anionic surfactants, < 5% non-ionic surfactants, 15-30% aliphatic hydrocarbons, perfumes, butylphenyl methylpropional, hexylcinnamal, limonene, linalool, auxilliary agents.
